UC18

Terg-A-Zyme is a powder detergent for ultrasonic cleaning. The combined power of alconox and enzyme has proven to be an effective blood remover as well as other soils.

UC21HH

MetriZyme is a detergent cleaner comprised of protease dual-enzymes. The active ingredients offer the broadest cleaning actions on a variety of protein soils. Inclusion of surfacants provides additional cleaning on carbohydrates, lipid soils and protein soils. The protein dissolving enzymes in MetriZyme allow for fast, simple removal of body fluids that often can not be accomplished manually with soaps and other detergents.
